Quality

In order to ensure a high level of safety and quality products, Confectionery Yarych has introduced a European system based on IFS Food standards. This implies the compliance of production with all sanitary norms, regulations and regulatory standards for hygiene. All staff members continuously undergo training in accordance with the rules and regulations of IFS Food.

This allows the company to produce the highest quality products, that confirmed by regular audits by an independent European commission.

Quality of products is the first priority of Confectionery Yarych. Its maintenance is ensured by a certified laboratory that provides organoleptic assessment, examination of all raw materials for compliance with physico-chemical and microbiological quality criteria and gives permission for their use. The laboratory carries out precise quality control at all stages of the production process, including verification and examination of the final product.

Confectionery Yarych puts the first priority on its product quality
